

## Protect yourself against the unexpected over an entire lifetime.

Life insurance can help you guard against the unexpected over an entire lifetime. Many products build cash value on a tax deferred basis and provide a mechanism for you to access part of your money in the event of an emergency. Coverage is guaranteed to stay in force for as long as the premiums are paid. An additional benefit to life insurance is the opportunity to customize your coverage using optional policy riders. Life insurance can be used to help secure the future of your loved ones or leave a legacy.

### Sage Whole Life

Like the idea of guaranteed lifetime protection, guaranteed cash accumulation, a guaranteed fixed premium, and access to funds if you need them? Consider this policy.

### Sagicor's WealthCare Indexed Single Premium Universal Life

If you want to create a legacy, but are concerned about what the future may bring, choose a policy that puts you in control — whether you want to pass on wealth, need care, or get a full return of premium.

### Sage Indexed Universal Life

Diversify your portfolio with a tax-efficient product that can provide a tax-free resource to supplement your retirement income, pay college tuitions, and help you accomplish future goals.
